Recruiter,
Orange Business,
Gurgaon, Haryana, India

Dear Recruiter,

I am writing to apply for the position of Cloud Monitoring Enabler Expert at Orange. With over 4 years of professional experience as a Software Engineer, I am confident in my ability to contribute effectively to your team with my expertise in Node.js, AWS, Java, Express.js, Springboot and related technologies.

In my current role as a Software Engineer at Suzuki, I have gained extensive experience in end-to-end software design and development. Working in a highspeed, agile environment, I have contributed to the server-side development of projects using a range of technologies, with a focus on creating modular and reusable RESTful APIs using Express.js. Additionally, I am well-versed in automating, configuring, and deploying instances on AWS, including EC2, IAM, Lambdas, and S3, while ensuring robust security measures through managing security groups on AWS.

My involvement in integrating multiple back-end systems, such as SoapUI, MongoDB, and PostgreSQL, has allowed me to deliver efficient solutions that meet project requirements. I have also implemented OAuth2 and JWT-based authorization protocols to ensure top-notch data security for users.

During my tenure as an Software Engineer (Associate) at Cognizant Technology Solutions, I contributed significantly to the development of multiple web application for various domains and industries like automotive, BFS and Telecom. Optimizing operations tracking and on-ground staff task management. Leveraging Node.js and MongoDB, I delivered quality code while adhering to best development practices. Additionally, I honed my front-end

development skills using React.js and Tailwind CSS, enhancing user experiences on various projects.

My technical proficiency includes:

- JavaScript

- Java

- Node.js

- Express.js

- RESTful API Development

- Springboot

- React.js

- AWS (EC2, IAM, Lambdas, S3, State Machines, AWS CLI)

- MongoDB

- PostgreSQL

- Hibernate

- Git

I am excited about the opportunity to contribute my skills and expertise to Orange India, a renowned organization that leads the way in cutting-edge technology solutions. I am confident that my background aligns with the requirements of the role and that my dedication to continuous learning and innovation would be an asset to your team.

Thank you for considering my application. I have attached my resume for your review, and I welcome the opportunity to discuss how my qualifications can contribute to the success of Orange India in further detail during an interview.

Sincerely,

Piyush Goswami
